From Big Data Management to Big Data Science

What is next?

- Data is the new oil gold
- There is a shortage for experts in data management and analysis
- This course put you at the beginning of the track
- Keep your hands dirty and keep learning

Job Market

Big Data Market Worldwide Segment Revenue Forecast 2011-2026

Big Data Market Forecast Worldwide from 2011 to 2026, by segment (in billion U.S. dollars)

Data Science

Credits: Drew Conway

Data Science

Data Scientist

Data Scientist (n.): Person who is better at statistics than any software engineer and better at software engineering than any statistician.

9:55 AM - 3 May 2012

Next Steps

- CS
 - Big data tools
 - Python/R/Scala
- Math/Stats
 - Linear algebra
 - Correlation analysis
 - Hypothesis tests
- Collaboration with domain experts
 - Visualization
 - Prototyping

Data Analytics

Big Data Landscape

Big data packages	MLlib	GraphX	Sparl	<r< th=""></r<>
High level APIs	Spark SQL	HBase	Algebricks	
Query Processing	RDD	Hyracks	MapReduce	
Distributed Storage	HDFS	KV stores	LSM trees	Column stores
