

**Notes**

- Include your full name and student ID.
- Submit your assignment through iLearn

(1) **Paper review.** Due: April 11, 2018 at 10:00 PM, 50% late allowed till April 12, 2018 at 3:00 PM

Submit your critical review for the following paper:

"Modelling geospatial application databases using UML-based repositories aligned with international standards in geomatics" Jean Brodeur, Yvan Bedard, and Marie-Josée Proulx. Proceedings of the 8th ACM international symposium on Advances in geographic information systems (GIS 2000), Pages 39-46.

Your review should clearly show the paper research elements and your comment on them.

(2) **Project idea and deliverables.** Due: April 12, 2018 at 3:00 PM

Your group is required to submit a clear description for the proposed project idea. The description should include the project category and a list of deliverables aligned with the course outline discussed in the lecture slides.
