CS 260-002, Spring 2018

Assignment 3

Notes
- Include your full name and student ID.
- Submit your assignment through iLearn

(1) **Paper review**.

Submit your critical review for the following paper:
"Graph indexing of road networks for shortest path queries with label restrictions" Michael Rice and Vassilis Tsotras. Proceedings of the VLDB Endowment, 4:2, Nov. 2010, 69-80.

You review should clearly show the paper research elements and your comment on them.

(2) **Project mid-term status**.
Your group is required to submit a mid-term progress update on the project work. The update should not be less than 0.5, and preferred not to exceed 3 pages in length. The update should include (a) the status of the project work progress so far, and (b) your plan and milestones for the rest of the quarter until the final deliverables due date on June 1, 2018.
