

CS 230, Quiz 2

Solutions

You will have 5 minutes to complete this quiz. There is one question. No books, notes, or other aids are permitted.

Problem 1

Below is a simple 2D raytracing setup. The 1D image has three pixels. The **blue** object is made of glass (reflective and transparent). The **green** object is reflective. The **red** object is made of wood. The two **yellow** circles are point lights. Draw all of the rays that would be cast while raytracing this scene.
